Hobbies

I would say that I really enjoy being in the nature, particularly in the beautiful mountains, and visiting different historical places in Bulgaria. Also, I love football - both playing and watching it. I have a lot of friends who are keen on football so we tend to spend a lot of time together doing all kinds of things related to football. Of course, I never forget my family and relatives. As we are not living in the same town, I very often visit and help them with everything I can. Last but not least, I am currently very interested in cryptocurrencies.
